TCS-1135-57  
Copy 3 of 8 copies  
1 April 1957

MEMORANDUM FOR: Chairman, Utilization Advisory Board  
THROUGH: Executive Secretary, Utilization Advisory Board  
SUBJECT: Sanitization of NTPC Report #3  
REFERENCE: (a) TCS-970-57; (b) TH-1972-6  
(c) TCS-1035 ; (d) TH-1687-7

1. Reference is made to subject report and an opinion rendered by specialists in AFOIN-Z, NTPC, and OSI, after study and consideration as to whether or not subject report should be revised or changed. The opinion was received by the TSO/CIA on 29 March 1957.

2. The comment rendered was to the effect that:

a. The report should not be changed and that the altitude data contained on Page 1 of the report was essential information required by the users.

b. In the future NTPC reports will be more specific in providing altitude information in K factor terms only.

25X1C 3. In order to prevent any delay in expediting subject report  
25X1C and prior to receiving the opinion, three copies of Report #3  
25X1C were couriered to the [redacted] with the general altitude information excised to prevent those not having a "must-know", who would be handling the material in the exchange, from being exposed to the altitude information. In a separate pouch the excised information was furnished to the [redacted] with instructions that the excised information be released only to those experts officially engaged in actually analyzing the information contained in the report.

[redacted]
